

## SHFC Knot Rocket Science Checklist

### Important Rules

- Members and guests shall sign a release and waiver of liabilities and return it to the boating chairman prior to checking out a boat.
- Pay fee in advance with PayPal [shfcboat@gmail.com](mailto:shfcboat@gmail.com)
- No watersports (e. g. skiing wakeboarding, tubing, swimming) Watersports are not covered by SHFC insurance
- Return boat clean, undamaged and ready for the next user
- You are expected to repair any damage incurred under your watch
- Stay a minimum of 100' from shore
- Always operate with depth finder on (depth alarm set to 5')
- Do not store fuel in dock box

### Check-out

1. Carefully remove cover without damage. fold and place in dock box (new cover costs \$900)
2. Install the trolling motor on the bow mount bracket
3. Load one PFD for each occupant plus the throwable PFD
4. Record fuel level
5. Inspect fire extinguisher (green peg showing)
6. Inspect water level in bilge and bilge function
7. Check horn
8. Lower engine
9. Pump fuel bulb until firm
10. Start engine making sure there are no engine fault alarms (Keys in the dock box. Engine Manual in glove box)

### Check-in

1. Tilt motor up out of the water.
2. Fill fuel tank with >87 octane <10% ethanol, <5% methanol gasoline.
3. Clean boat
4. Return Keys to the dock box
5. Return dry items to dock box. Spread wet items on deck of boat
6. Unmount trolling motor and place it on deck of boat
7. Install cover securely
8. Lock dock box
9. Charge spent trolling motor batteries and return them to dock box. This step assumes you had to use the fresh batteries in the dock box. Coordinate suitable time for returning batteries with next user on the calendar.
